The early-1980s were such a funny era. I mean, not ha-ha funny although there's an element of that, too. Funny in that those cars that we always thought would be around would be shown the door and new cars and entirely new ways of looking at how cars were designed, styled and used would enter the scene through that open door. So glad to see such a pristine K shown as this model gets the full CC treatment. I am shocked as I think back that I never managed to score a ride in an Aries or a Reliant despite their ubiquity in the 80s. The Dodge Daytona is an automobile which was produced by the Chrysler Corporation under their Dodge division from 1984 to 1993. It was a front-wheel drive hatchback based on the Chrysler G platform, which was derived from the Chrysler K platform. The Chrysler Laser was an upscale rebadged version of the Daytona. The Daytona was restyled for 1987, and again for 1992. All Dodge (USA) Omni GLH Hatchback versions offered for the year 1986 with complete specs, performance and technical data in the catalogue of cars
