

Download Manual Ts 2000 Portugues

Launched in March 1975, the Renault 30 TS was the first Renault with an engine having more than four cylinders since before World War II. It was one of the first cars (the other two being the Peugeot 604 and Volvo 264) to use the then newly introduced 2664 cc PRV V6 engine, which was developed jointly between Peugeot, Renault and Volvo; the PRV produced 130 PS (96 kW) and could power the R30 ...The Manual Wheel-Lok™ Restraints, (trailer wheel lock,) offer simple operation in a cost-effective, versatile design to service a wide variety of trailers, such as hydraulic lift gates or trailers without rear impact guards RIGs. Below are some of the most popular Occupant Securement options. For help finding the right parts and kits for your specific application, please contact sales for more information.
