

# Download State Of California Manual On Uniform Traffic Control Devices

The Manual on Uniform Traffic Control Devices for Streets and Highways, or MUTCD defines the standards used by road managers nationwide to install and maintain traffic control devices on all public streets, highways, bikeways, and private roads open to public travel. The MUTCD is published by the Federal Highway Administration (FHWA) under 23 Code of Federal Regulations (CFR), Part 655, Subpart F. The Manual on Uniform Traffic Control Devices (MUTCD) is a document issued by the Federal Highway Administration (FHWA) of the United States Department of Transportation (USDOT) to specify the standards by which traffic signs, road surface markings, and signals are designed, installed, and used. These specifications include the shapes, colors, and fonts used in road markings and signs. As of November 7, 2014 the California Department of Transportation has adopted the California Manual on Uniform Traffic Control Devices (FHWA's MUTCD 2009, including Revision 1 & 2, as amended for use in California), also called the California MUTCD, to prescribe uniform standards and specifications for all official traffic control devices in California. California Joint Utility Traffic Control Manual 4 The California Joint Utility Traffic Control Manual is a joint effort among members of the California Inter-Utility Coordinating Committee.
